

## **REPLACING the Gray Hose Tubing Connector for the Pulmo-Aide 5650D**

**Part No. (5650D-611)**

Use a Torx T20 screwdriver (Star ScrewDriver) to remove the 6 screws on the back of a Pulmo-Aide 5650D Compressor.

Torx T20 screwdriver  
(Star ScrewDriver)

This Pulmo-Aide will Last for about 10 Years.

There are 6 screws on the back of a Pulmo-Aide 5650D Compressor.

If the unit makes too much noise, you can tighten them up but don't overtighten them.

I normally turn the unit on using a Torx T20 screwdriver and tighten up the screws to quite the noise.
